

Bald Eagle Apex Development Solutions, Inc.

Together We Can Make A Difference

Often decried as one of the worst plague of the modern society, poverty remains nonetheless rampant and a major development challenge all over the world. In response, several strategies, programs and initiatives are carried out daily with the view if not to eradicating it as a phenomenon, to at least keeping it under control through a short-to-medium term elimination of its most severe form, the extreme poverty.

As a small private company founded and led by a development practitioner with 30 years of experience in the field of international development finance, central banking, and monetary policies, Bald Eagle Apex Development Solutions, Inc. is committed to partaking in the global endeavor aimed at supporting

the conception, implementation and evaluation of strategies and policies that are designed around the world to spur high quality growth, promote sustainable development, and maximize their trickling-down positive impact on poverty.

Our client base is composed of two segments -sovereign and private entities- to which we offer three lines of intertwined high-end products guaranteed to bringing a meaningful value addition to their existing development instruments. The three lines of products are:

1. The Eagle Strategic Compact: Developing countries around the world are increasingly reaching tipping points in their reform programs that signal genuine op-

portunities for turning poor nations into emerging markets and pushing the middle-income ones further up on the development ladder. In such a context, our Eagle Strategic Compact aims to support our clients, sovereign and private entities alike, in their effort to turn their development vision into credible frameworks for action. For sovereign entities, the compact builds on Bald Eagle Apex Development Solutions Inc's expertise, diagnostic and analytical tools, and partners, to offer top quality support in the design and evaluation of the macroeconomic frameworks and sectoral programs that are needed for the success of the increasingly sophisticated development strategies adopted by several low income countries thriving to become middle-income countries

in the next 5-10 years. For private entities, the Compact provides high performance small and medium enterprises (SMEs) with the support needed to design and monitor business plans aimed at expanding their possibility frontiers.

2. The Eagle Investment Nest for Catalytic Growth: This product supports our clients in their effort to mobilize much needed resources for financing their growth and development strategies. For all our clients, sovereign and private entities, our Eagle Investment Nest for Catalytic Growth works as a two-directional instrument at both the recipient and investor's ends, to facilitate the identification and promotion of financing opportunities for bankable development programs, projects, and initiatives. For private entities only, the product provides also for seed funding and direct equity

investments by Bald Eagle Apex Development Solutions, Inc in small and medium enterprises.

3. The Eagle Wing Platform for Capacity Enhancement and Leadership: With this product, Bald Eagle Apex Development Solutions Inc in partnership with renowned and highly specialized academic institutions, provides clients with hands-on trainings in leadership, corporate finance, banking/markets finance, as well as in macro and micro-finance. The Platform takes abroad to our clients, top quality trainings tailored to their needs, from partner US ivy schools of management and finance. In addition, we offer our clients a broad spectrum of solutions aimed at improving their IT platform and other productivity tools associated with their areas of activities.
